

## Email Compliance and Data Security are tipped to be Hot Topics for 2011.

Press Release – for immediate release - January 2011

---

### Email Compliance and Data Security are tipped to be Hot Topics during 2011.

**In response to these predicted hot topics, Cobweb Solutions, Europe's leading provider of Cloud IT Services, has teamed up with Global Relay and Microsoft to offer UK based Financial Services Organisations a fully compliant, low-cost, integrated Hosted Exchange Email and Archival solution.**

Research published by the Information Commissioner's Office (ICO), the body responsible for investigating data breaches, shows that up to 36 per cent of all recorded data breaches in 2010 related to preventable issues. IT departments account for one of the biggest potential risks when it comes to protecting sensitive company information.

Human errors committed by IT teams have led to many UK businesses, in particular the financial services sector, losing confidential corporate data, or a compromise of company secrets and Intellectual Property.

In recent years, this problem has grown dramatically and many businesses are now affected – with a cost of £840 million across UK businesses, including financial services businesses.

Cobweb Solutions can help by providing the financial services industry with a secure, reliable platform for long-term email usage, storage and archiving, encompassing:

- Effortless adherence to the latest Government regulations
- Utilisation of cutting-edge data protection technologies
- Comprehensive backup procedures and stringent access control
- Fully managed information storage in a secure data facility
- 24/7 UK based telephone and online IT Support.

Cobweb Solutions has teamed up with Global Relay to promote a special Financial Services offer which comprises of Microsoft Hosted Exchange and Global Relay Email Archiver. This offer, which is the most cost-effective in the marketplace – is available from just £8.49\* per user, per month. To find out more visit [www.cobweb.com/fspr](http://www.cobweb.com/fspr)

Cobweb Solutions is the UK's leading and most trusted provider of secure, compliant, reliable and cost-effective business email and archival solutions. We've been around since 1996 to provide Cloud IT Services to small, medium and large businesses.

With three ISO accreditations, Microsoft Gold Certification status and data centres in London and Fareham, more than 6,000 businesses benefit from uninterrupted access to applications, email and the internet.

Cobweb provides businesses with guaranteed uptime and state-of-the-art security. Businesses can be confident that their email data is safe and secure and will always be available to them, and only them, reducing business risk.

To find out more we are inviting Financial Services Organisations to attend a **FREE** webinar on Wednesday 26<sup>th</sup> January 2011. During the webinar we will demonstrate Microsoft Hosted Exchange and Global Relay's Email Archiver and the benefits to Financial Services Organisations.

To find out more and register visit [www.cobweb.com/fspr](http://www.cobweb.com/fspr) or call 01329 252 532
